Muhammad Hussain Riaz

Lahore, Pakistan | +92 325 7884328 | muhammadhussainriaz123@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Junior Data Analyst with DataCamp's Associate Data Analyst certification (PostgreSQL), plus hands-on project experience in Excel dashboards, SQL database design, and Python. Adept at transforming complex datasets into clear, actionable business recommendations for non-technical stakeholders.

TECHNICAL SKILLS

Data Analysis: SQL (PostgreSQL, MySQL), Microsoft Excel (Pivot Tables, Slicers, Nested IFS, Data Modeling), Python (Pandas, NumPy)

Other: Machine Learning, Gen-AI, Database Design, Jupyter Notebook, GitHub

Soft Skills: Analytical Thinking, Communication, Team Leadership, Problem Solving, Attention to Detail

EXPERIENCE

Volunteer | ***Oct 2024 – Present***
Al-Burhan — Lahore

Pharmacy Assistant — Part-time | ***2020 – 2022***
Ghafori Maternity Hospital and Surgical Center — Lahore

- Managed patient billing and financial transactions, ensuring numerical accuracy in charge calculations and payment processing.
- Guided patients on medication pricing and procedures; maintained organised inventory records and supported day-to-day hospital operations.

PROJECT EXPERIENCE

Bike Sales Analysis & Customer Intelligence Dashboard | ***Sep 2026***
Personal Project · Microsoft Excel (Advanced Formulas, Pivot Tables, Slicers, Data Modeling)

- Conducted end-to-end demographic and behavioral analysis on 1,000 retail customer profiles across 3 regions (North America, Europe, Pacific); engineered multi-tier age brackets with nested IFS logic and established immutable raw-data safeguards.
- Built an interactive executive dashboard with synchronized Pivot Tables and slicers, identifying a +5.6% buyer income lift, middle-age purchase dominance (67.4% sales), and a 58.6% conversion peak at 2–5 mile commutes to steer marketing spend.

Databel Customer Churn EDA | ***Aug 2026***
Personal Project · Microsoft Excel (EDA, Pivot Tables, Feature Engineering)

- Performed EDA, cleaning, and feature engineering on a 6,687-customer telecom dataset, establishing a 26.86% baseline churn rate (1,796 churned accounts).
- Segmented churn risk by contract type (46.29% month-to-month vs 2.78% two-year) and isolated competitor offers and device promotions as the top driver (~45% of churned accounts).

e.Baab-Ul-Salah — Islamic Prayer & Congregational Timing Platform (FYP) | ***Oct 2025 – Jun 2026***
University of South Asia · Python, FastAPI, ASP.NET Core, SQL Server, Git

- Developed a mobile prayer companion with congregation-timing predictions using a Random Forest Regressor (MAE under 3 seconds) trained on 51,000+ rows of mosque data, an AI-powered Islamic Q&A; chatbot, and GPS Masjid discovery.
- Built on a microservices architecture with a Python FastAPI backend and C# ASP.NET Core gateway, deployed serverlessly to Vercel.

Patient-Tracker Workflow Application | ***Jul 2026 – Aug 2026***
Personal Project · JavaScript, HTML5/CSS3, Chart.js, Google Sheets API, PDF Generation

- Integrated Chart.js financial analytics dashboards and an automated multi-page PDF engine generating itemized monthly settlement statements with timestamped verification blocks.
- Built an offline-first clinical workflow application featuring multi-hospital PKR revenue-split algorithms, session PIN security, and automated Google Sheets sync.

Fashion Store Database — SQL | ***May – Jun 2024***
University of South Asia · Database Course

- Designed a normalised relational database in Oracle covering inventory, customer records, and order tracking with complex SQL queries.

EDUCATION

Bachelor of Science in Computer Science | **CGPA 3.02/4.00** | ***Sep 2022 – Jul 2026***
University of South Asia — Lahore

- 1× Winner, Idea Pitching Competition — Tech War 2025.

CERTIFICATIONS

- Associate Data Analyst — DataCamp
- Data Literacy Professional — DataCamp
- Google AI Professional — Google
- Data Analysis Using Python — NAVTTC
- AI Fluency Framework & Foundations — Anthropic
